

## Permission to use Photographs in GVM Communications

At Green Valley Methodist Church Preschool and Kindergarten, we provide a memory book for each student as a memento of their time spent here at GVM Preschool and Kindergarten. In support of this endeavor, we periodically take photographs of our students. Occasionally we may post some of these pictures on our bulletin boards or publish them in our church newsletter. Additionally, the church maintains a website with links to school information and we have a group Facebook page for the school. Photographs of our students may be posted there as well. Please note, individual students are not identified on any of the public web pages.
